

Addiction Treatment Leadership Day

Jubilee Building, 545 Parnell Road, Parnell, Auckland

3rd July 2008

These events, organised by the National Committee for Addiction Treatment (NCAT) and funded by the Ministry of Health through Matua Raki, the Addiction Workforce Development Programme, are held three times a year for leaders in the addiction treatment and allied fields to share information and practice, and discuss issues of importance in policy, planning and service delivery. They are also an opportunity for government and NCAT to hear the sector's voice and use that feedback to inform their work and direction.
